

MULTIMEDIA TECHNOLOGIES, APPLICATIONS AND SERVICES FOR 3G AND BEYOND

It is with a great sense of anticipation that the popularity and evolution of mobile computing devices such as laptops, mobile phones, Personal Digital Assistants (PDA), and the fast mobile networks, have made it possible to increase the range and complexity of mobile multimedia applications and services provided to end-users. In the core of this revolution is the astonishing growth in the number, types, novelty, and complexity of mobile multimedia applications and services. Yet for people to realize the vast promise of mobile multimedia, mobile multimedia applications and services must become dramatically more powerful and easier to use.

MoMM 2003 aims to provide a forum for the discussion and exchange of ideas and information by researchers, students, and professionals on the issues and challenges brought by the emerging wireless technologies for mobile multimedia applications and services.

TOPICS OF INTEREST

MMM Applications & Services
MMM Software Architectures
MMM Markets & Business Models
Enabling Infrastructures for MMM
Provisioning of Mobile Multimedia Services

Communication & Cooperation through MMM
Wireless & MMM Network Management
MMM Network Traffic Engineering & Optimization
Regulatory and Societal Issues of MMM
Personalization, Privacy and Security in MMM

PROGRAMME

MoMM2003 consists of a peer-reviewed technical program, short papers and posters, demos, tutorials, panels, invited sessions on the same or related topics, industrial track, and exhibitions.

RESEARCH AND TECHNICAL TRACK

Authors are requested to register the abstract of their papers by June 1, 2003 and to submit the full paper electronically before June 15, 2003. For paper registration and electronic submission please use the conference website.

The length of a paper should not exceed 12 pages. The paper must be formatted in A4 with Times fonts of size 11. The printing area should be 14.66 x 24.62cm. Submissions should be in PDF or MS Word format.

Submitted papers will be carefully evaluated based on originality, significance, technical soundness, and clarity of exposition. All accepted conference papers by an international publisher with ISBN. Selected papers will be published as a special issue of the International Journal of Mobile Communication.

INDUSTRIAL TRACK

Industrial presentations will describe current challenges and trends of the mobile multimedia industry. Nominations for topics and speakers are welcome, and should be submitted electronically by July 1, 2003.

TUTORIALS

Proposals are invited for high-quality half-day tutorials. Proposals should include a two-page description and motivation for the topic of the tutorial, the full name and address of the tutorial speaker(s), a concise description of the contents and goals of the tutorial with a few keywords for each section, a rough estimate of the time spent on each section, the level of the tutorial, the required audience experience, and the speaker(s) biography. Tutorial proposals should be submitted by June 1, 2003. The program committee will give notification of acceptance by July 2003.

PANELS

Proposals are invited for high-quality panel sessions. Proposals should include a two-page description and motivation for the topic to be discussed, as well as two pages devoted to the biographies of willing panelists

EXHIBITIONS

Companies and R&D laboratories are encouraged to present and exhibit their latest developments during the conference. For further information contact: momm2003@tk.uni-linz.ac.at

INVITED SESSIONS

MoMM2003 solicits proposals for invited sessions on the same or related topics of interest. Proposals must be well-developed and include the following: proposed title, moderator(s), speakers' names and addresses, speaker presentation titles, and a paragraph detailing the contents of the proposed session. Panel proposals should be submitted by June 1, 2002. The program committee will give notification of acceptance by July 1, 2002.

IMPORTANT DATES - UPDATES!

May 1, 2003 proposal for panels, tutorials, invited sessions due

June 15, 2003 Abstracts Registration and Paper submission due

July 14, 2003 Notice of Acceptance or Rejection

August 1, 2003 Short Papers, Posters, Demos, Industrial Presentation & Exhibition due

August 7, 2003 Camera-Ready Papers due

August 1, 2003 Online Pre-registration starts

September 15-17, 2003 Conference
